

Salem Hospital construction update March 27, 2009

SAFETY ALERT! Watch turns onto Capitol Street SE

- Recently, several drivers have missed sign changes and narrowly avoided car crashes at the new Capitol Street SE crosswalk.
- Recently workers finished work at the crosswalk from the employee surface lot to the west side of Capitol Street, between Mission Street SE and Oak Street SE.
- As part of the work, they removed temporary stop signs and replaced them with signs that read “Stop here for pedestrians.” (See page 2 for photos.)
- Drivers exiting the surface lot or entering the parking structure should follow normal traffic patterns and wait until lanes in both directions are clear before turning onto Capitol Street.
