

# Salem Hospital construction update

## October 27, 2008

### Site work on Mission Street SE begins Oct. 28

- Beginning Tuesday, Oct. 28, Turner Construction will begin finishing the approach to the new ambulance drive on Mission Street SE. This work will take about three days to complete.
- To complete this work, the parking lot east of the MRI building will close, along with the sidewalk on the north side of Mission Street between Capitol Street SE and Winter Street SE.
- Pedestrians walking west on Mission Street SE will be directed to cross from the southwest corner of Capitol and Mission to the sidewalk south of Mission Street. They can then return to the sidewalk north of Mission Street at the southeast corner of Mission and Winter Street SE.
- Patients, visitors and employees currently parking in the MRI parking lot will need to use the parking structure or the surface employee parking lot until site work on Mission Street SE is complete.
