

Salem Hospital construction update Dec. 18, 2008

Elevator work beginning, COM front entrance and landscape plaza work ending

Work on elevators A and B in Winter Street Building begins Dec. 29

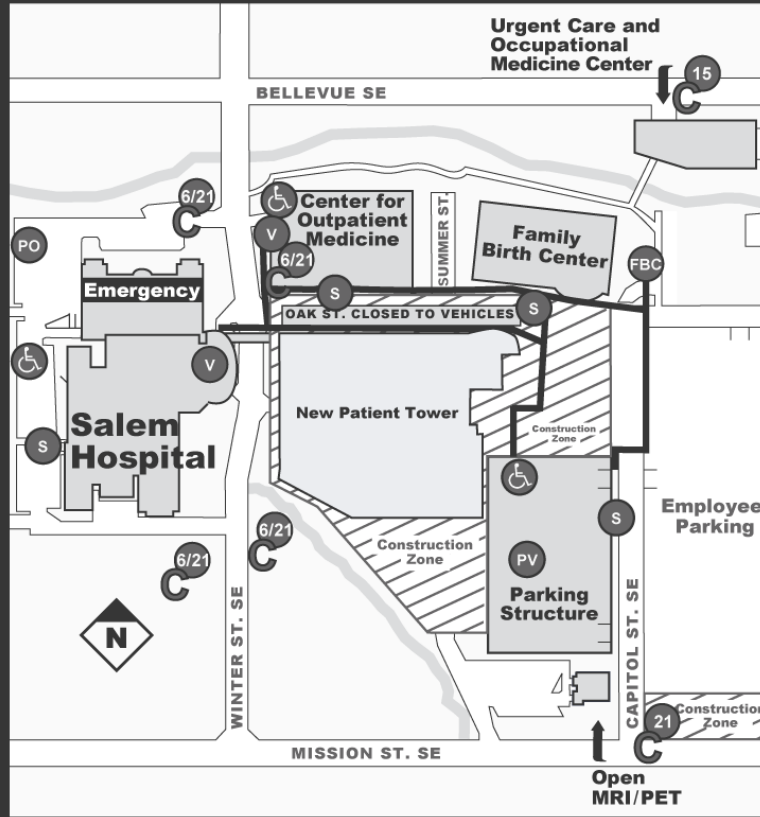

- Turner Construction plans to begin work on elevators A and B in the Winter Street Building on Dec. 29, and complete the work by Jan. 2.
- The work will include replacing elevator doors and hardware at the third floor elevator landing.
- This is part of construction for the sky bridge between the new patient-care tower and the Winter Street Building.
- Elevators A and B will be closed for the duration of the work.
- During the closure, use elevators G and H as an alternate.
- Signs will be placed to direct people from elevators A and B.

Front entrance of Center for Outpatient medicine scheduled for completion Dec. 22

- Turner Construction is finishing the front entrance of the Center for Outpatient Medicine this week.
- Turner is on schedule to turn the space over to the hospital for public use on Dec. 22.

Landscape plaza nears completion

- Our new landscape plaza at the center of Oak Street SE and Winter Street SE is almost complete.
- Final touches in front of the Center for Outpatient Medicine are occurring this week.
- Fencing in front of the Center for Outpatient Medicine will come down when the new entrance opens for use on Dec. 22.
- Fencing in front of the new patient-care tower will remain in place.
